Independence, Kansas, Quiet After Night of Horror When Race Riot Occurs

Killings Caused by Effort To Lynch Negro Murderer

(By Associated Press)

Independence, Kans., December 17.—Members of the home guard and American Legion were patrolling the streets here today as a result of race disorders last night in which a white boy and a negro were killed and four white men wounded, three critically.

Other home guard members and legionaries sworn in as deputy sheriffs, were on duty near the county jail, where, according to Chief of Police E. H. Hall, Noble Green, a negro, is confined, whose alleged action in killing B. R. Wharton, a white grocer, yesterday precipitated the trouble.

Threats of lynching were made late yesterday after Green had been captured at his home by a posse.

The local officials were without information today as to whether national guardsmen would be sent here as a precautionary measure. According to authorities the trouble was not unexpected and had been brewing all day yesterday.

The climax came when Mayor John L. Wadman and Chief Hall accosted a crowd of armed negroes on the street and urged them to go home. The negroes refused.

While they were talking, a group of armed whites came up. According to witnesses, Arthur Harper, negro, without warning shot dead Lawrence Clennan, a white boy. Before Harper could lower his weapon, he was riddled with bullets.

With a wan little smile which, together with her simple mourning, was the only outward evidence of her great sorrow, Mrs. Muriel MacSwiney presented a Spartanlike figure as she set foot on U. ## RUSS. RAILROADS HEAD GOT TRAINIGN ON U. S. RAILROADS

Revat, Esthonia. (By Mail)—Since Trotsky, the Bolshevik War Minister took over the Russian railroads and put them under the personal direction of Sverdloff there has been marked improvement in transportation conditions. Sverdloff lived for several years in America and had the advantage of association with the Stevens railway experts in Russia. He is not a politician but an economist and executive who has been identified since the Bolshevik regime with the Russian Co-operatives and the Russian Red Cross.

However, the improvements made in rolling stock, have been temporary rather than permanent. By forced labor and the stripping of disabled locomotives and cars to repair others an excellent showing has been made. This enabled the Russian forces to drive against Poland but even the Bolsheviks do not claim the improvement was effected by manufacturing repairs.

Brother Bryan was always a cheerful loser, but this time he seems positively enthusiastic.

If Uncle Sam doesn't wish to play the game, perhaps he could enter the league as an umpire.

## WIND AND WATER SOLVE PROBLEMS

Paris. (By Mail)—Wind and water old the solution of the fuel shortage in France. E. Colardeau told his associates at the Academy of Sciences at a last meeting. He presented what is considered proof in the results of an installation on his kitchen faucet of water—turbine which drives a dynamo that charges storage batteries.

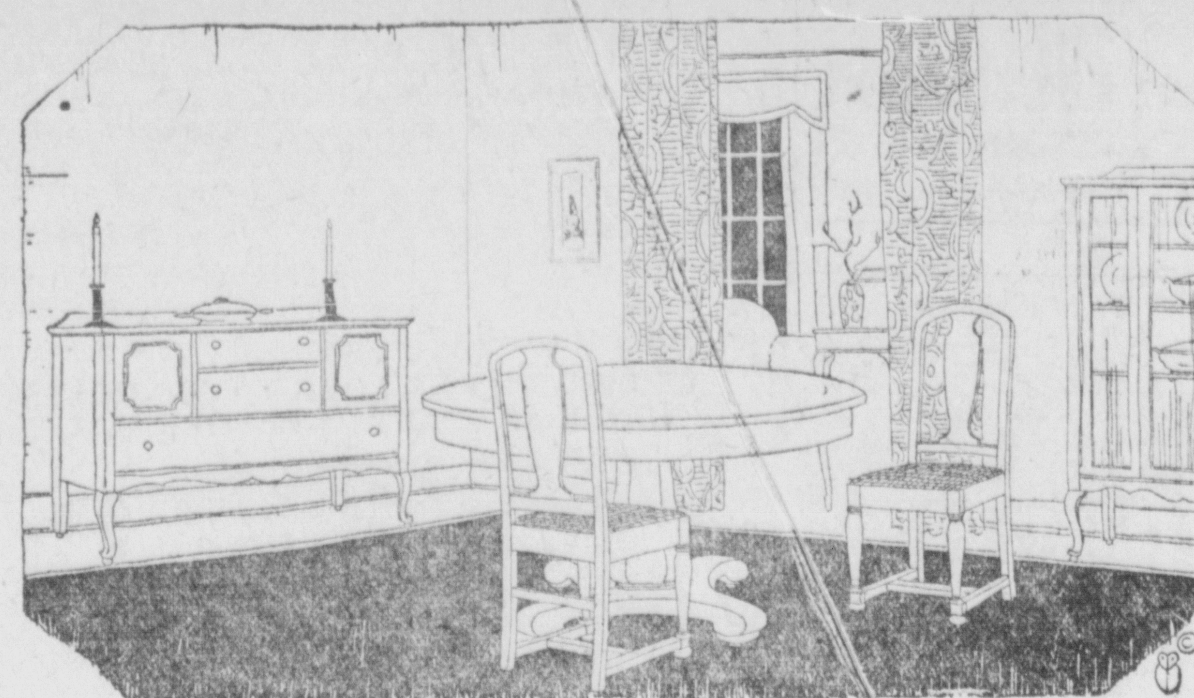

City pressure on the water, he explained, is sufficient to furnish a household with electric light.

In the country, M. Colardeau would install windmills to pump water to levitated tanks and utilize the fall of the water through a pipe to turn the harging turbin.

New interest has been taken here in this idea of household installations because the higher costs of fuel and power, it is considered, may make raceicable these water turbines.

(By Associated Press)  
Cleveland, December 16.—A resolution requesting President-elect Harding to appoint L. J. Taber, of Barnesville, secretary of agriculture in his cabinet was adopted at the closing session of the forty-eight annual convention of the Ohio State Grange here today.

Mr. Taber was unanimously re-elected State Master for two years today.

A resolution to form with other farmers' organizations a statewide cooperative buying and selling company was adopted.

The report of the resolutions committee, as adopted, favors establishment of rural police protection, enactment of the French-Capper truth-in-fabric bill, opposition to the Rolston-Nolan bill and maintenance of the Ohio experiment station as a distinct institution.

## KING CHANGED YANK'S RATIOS AFTER INTERVIEW

(By Associated Press)  
Coblenz, (By Mail)—Sergeant Guyon of "B" Troop, American Forces in Germany, has the distinction of having had his ration changed by direct order from King George. When the American Army polo team from Coblenz was in England recently, Guyon had charge of the ponies at Aldershot. The King visited the field and was attracted by the ponies' blankets bearing the letters "A. F. G." He approached to inspect them and address Guyon.

"Well, how are you getting along in England?"  
The British Tommies nearby standing rigidly at attention were petrified by Guyon's reply "Oh, pretty well King but say this tea we have for breakfast is fierce—can't you fix it up so we can have coffee?"

The King laughed and addressing one of his aides said: "See to it that these men have coffee hereafter." And the Americans had coffee.

## NORTH AND SOUTH CHINA REUNION HAS BEEN ORDERED

The mandate orders the various provincial authorities to exert themselves to the end that the democratic government may be promoted, and announces that the republic "will henceforth be united."

The proclamation is practically coincident with a declaration from Canton by Tsen Chan-hsuan and others of the "Executive Committee of the

The reunion mandate loses much of its force due to the fact that another independent faction is in control of the territory which the "military government" relinquishes, and that the signers of the Canton declaration immediately boarded a British steamer to escape the incoming troops of the opposition faction. Also leaders of the Cantonese faction deny the right of Tsen Chun-hsuan, General Lu-Yung-ting and Mu-Yung-hsien, of the Kwangsi party to dissolve the military government.

Other members thus far named are Liu Ching-jen, former minister to Russia, and Shen Jui-lin, one-time minister to Austria. ## JAPS WELCOME END OF AGREEMENT BUT ASK ANOTHER

(By Associated Press)  
Tokio, (By Mail)—Resolutions "welcoming" a cancellation of the Gentleman's Agreement between Japan and the United States, provided that some sort of a substitute could be agreed upon free from discrimination, were adopted at a joint meeting today of the Japanese Peace Society and the American Peace Society. This action was the result of three meetings of the two societies.

It was asserted in the resolutions that, in the opinion of the two societies, Japan had kept the Gentleman's Agreement both in spirit and in letter. The resolution declared also that the two societies would welcome the adoption of any measures.

Men's student council is planning to stage a foot ball rally for the Ohio State team directly following the Christmas tree service. It will be the last cheer feast before the team leaves for Pasadena.

About twenty-five young people responded to invitations sent out by Misses Ethel and Maud Ekins to a Christmas party at their hospitable country home Wednesday night.

The evening was one of rounded out pleasure, including games and con tests.

The Christmas red and green color scheme used in general decoration delighted the eye as fully as the delectable viands the appetite.

Guests were Misses Helen Eckle, Cleo Parrett, Opal Eckle, Ethel Bonecutter, Ilo Shobe, Mildred Smith, Marion Cook, Louise Cooke, Dorothy Storts; Messrs. Robert Fulton, Harvey Fulton, Billy Gamble, Clarence Eckle, Howard Hopkins, Eugene Hopkins, Jasper Cox, Owen Cox, Kenneth Campbell, Neal Hoppess, Paul Graves, Clarence Summers, and Paul Hornbeck; and Mr. and Mrs. Carey Henkle.

The home of Mr. and Mrs. Willard Everhart South of town was the scene of a brilliant and beautiful Christmas party Thursday night, when Mrs. Everhart entertained the young women of the Golden Rule Class, their husbands and a few additional guests as a surprise for her husband in honor of his birthday.

The home was gayly enfeited with pink and white chrysanthemums and Mrs. Everhart managed the affair with complete success in all of its elaborate plans and proved herself a skilful hostess.

Sixty guests enjoyed every minute of a very merry evening. At ten o'clock an elaborate three course supper was served and a novel and taking feature, introduced in the matching for partners and changing with each course.

Crowning the feast of good things Santa Claus brought in a bedecked Christmas tree, strung with red and green ribbons, peanuts, containing numbers, were attached to the ribbons, green for the women and red for the men and there was great fun in matching them for partners for the last course. Then Santa Claus brought in packages which when unwrapped were found to contain individual ice cream bricks wrapped as presents.

All the guests brought Mr. Everhart birthday gifts, comical take offs that when opened renewed the hilarity.

A contest and musical program were

included in the entertainment.

Mr. Harry Silcott won the head prize in the contest and Mr. Harry King the consolation.

Mrs. Scott Fisher assisted her daughter in the hospitalities.

The guests in addition to Class members and their husbands were: Mr. and Mrs. Willard Wilson of Springfield; Mr. and Mrs. Walter Craig, Mr. and Mrs. Ed Fite, Mr. and Mrs. Ray Fisher, Mr. and Mrs. Elton Marine, Mr. and Mrs. Hays Dill, Miss Miriam Fite, Miss Mary Fisher.

Within the past two weeks New Yorkers have heard no fewer than six Czech musicians in concerts or operas the list includes Jan Kubelik, violinist, at the Hippodrome; Emma Destinn, soprano of the Metropolitan Opera House; Boza Umrov, tenor, at Aeolian Hall; Vasa Prihoda, violinist, at Carnegie Hall; Madame Masa Los-tavkova, contralto, New York Opera Club; and Marie Mikova, pianiste, Aeolian Hall.

Other Czech artists who will soon make their bow to American audiences are Marie Dvorakova, pianiste, and Dr. Vohnout, violinist, both of whom have played many seasons in various European capitals, but have never before visited America.

"Every Czech a musician," the saying goes, and it is at least true that few small nations may claim so great an array of musical talent as does this country of Antonin Dvorak, composer of "Humoresque" and "The New World Symphony." Dvorak spent several years in America, as director of the National Conservatory of Music, and Indian chants and negro melodies have influenced his Bohemian compositions to a large extent.

Mrs. R. M. Hughey charmingly filled the role of hostess to the Thursday Euchre Club, with the addition of a few favored guests.

The serving of a delicious and perfectly appointed collation brought the afternoon's game to a close.

Mrs. W. B. Rogers, of Wilmington, was in attendance.

Mrs. Edgar Snyder hospitably threw open her home Thursday afternoon for the annual Christmas dinner of the Tuesday Kensington Club.

It was one of the prettiest and gayest Christmas parties imaginable, with a splendid turkey dinner, the beautifully brocaded king of birds flanked by every accessory and Christmas decorations brilliantly effective.

The table presented a radiant Christmas picture, a beautifully trimmed little tree sparkling in the center and broad stripes of green and red outlined on the table. The electric light bulbs shed rosy glow through flower shades in the bright red.

The dinner progressed merrily through three courses and reached its pleasurable climax in the Christmas gift drawing.

The hostess had introduced a novel and clever idea in having numbers disguised as tree decorations and the girls happily drew the numbers and prettily wrapped boxes to correspond.

After the opening of the gifts the club members visited over their fancy work.

A happy custom of the Yuletide season followed by the Teachers of Central building is an informal Christmas party and after school Thursday afternoon these teachers assembled in the rest room for their Christmas tree and exchange of gifts.

The little affair was one of the utmost pleasure, including refreshments. Besides exchanging gifts with each other the teachers presented Miss Edythe Blackman with several pieces of Parisian ivory in appreciation of favors during the past year.

The teachers participating were Misses Bell, Palmer, Sollars, Taylor, Baughn, Mrs. Moore, Misses Green, Hess, Blackman and Fultz.

Mrs. Harry Rankin delightfully entertained the Thursday Kensington Club at her home on South Sycamore street.

Potted plants lent added cheer to the rooms and the serving of a delectable lunch accentuated pleasure of the afternoon.

Mrs. Isaac N. Lair, of Wilmington was an out of town guest.

Miss Mindonna Dabe the attractive daughter of Mrs. Susie Royce of West Market street plighted her troth to Mr. Myers Klumey, son of Mrs. Della Klumey, Thursday morning at nine o'clock in the First Baptist Church, East Broad street, Columbus. Rev. Daniel F. Rittenhouse performed the ceremony in the presence of Miss Mildred Moss and Miss Annis Morse. After a few days spent in Columbus

### MRS. J. P. BUSH DIES SUDDENLY

Of extreme suddenness was the death at 12:30 o'clock Friday morning of Mrs. J. P. Bush, in the offices of Drs. Ireland and Brock on Court Street. She was 58 years old.

Thursday afternoon Mrs. Bush came to this city to do Christmas shopping and was in the Fite Grocery when she was taken very ill. She was removed to the doctors' offices and immediate medical attention was rendered. She was suffering with acute indigestion and complained of suffering with a pain in her heart which had been annoying her for some time.

When she became too ill to be removed to her home she was given care with the hospital facilities of the office. Shortly after midnight she grew worse.

In the death of Mrs. Bush one of the most beloved and well known women of the county passed away. Particularly was she prominent in the Bush Road community, where she spent the greater part of her life.

Unlimited in her devotion to her home, she found her greatest pleasure in her family circle, which is sadly desolated and doubly so since from last July when her son's wife Mrs. Orville Bush, passed away, she had been caring as a mother for the two sons, aged two and three years. Sympathy goes out deeply to those bereaved.

Although deeply attached to her home she found time for outside activities and as a member of the Mt. Olive Church she was a regular attendant and was also a member of the Mt. Olive Church Aid Society.

Three sons survive with the husband, Alden, of Frankfort; Orville at home, and Glenn, of the Bush Road.

Two sisters and two brothers also survive, Mrs. O. E. Fultz, of the Sebina pike; Mrs. L. W. Chaffin, of this city; John Cripps, of this city, and Noah Cripps, of Albany, Ga.

Funeral services will be held Monday afternoon at 1:30 o'clock in the Mt. Olive Church. Interment will follow in the Washington cemetery.

### FIND FIELD PIECE ALMOST FORGOTTEN

Toledo, Ohio. — An historic French 75-mm field piece, that had been through the world war, was given to the city of Toledo nearly two years ago by the French high commission. Recently members of the American Legion wondered what had become of it; no one had seen it, although it had been intended to set it up as a permanent monument.

The Legion members started an investigation, which resulted, they asserted, in finding the cannon in a city shed, piled in with street rollers, wagons and street brooms. The legion is trying to find a suitable place for the gift.

The only wonder is that nobody sold the Atlantic Ocean to the Shipping Board.

### GOLD SOVEREIGN HAS DISAPPEARED FROM CIRCULATION

(By Associated Press)

London, (By Mail)—The golden sovereign has almost vanished from circulation in most parts of Great Britain since paper currency has been issued, but in the west of Wales gold is as plentiful as it was before the war says the Daily Chronicle.

There the British sovereign causes no surprise at all when change is given and both the sovereign and the half sovereign are passed frequently from hand to hand until the banks get hold of them.

With the exception of Spanish currency, it is probable there is as high a standard of gold currency in Wales as in any part of Europe today. Welsh farmers have earned big profits in the last few years, and hoarded them. It is these hoards of gold which are now making their appearance.

An optimist can always see the bright side of the other fellow's misfortune.

### CAPTURED CITY HAS FIGURED IN PLANS FOR 700 YEARS

Danzig, (By Mail)—Vilna, which the former Russian general, Zeligowski, recently occupied with troops of the Polish army, has figured in the aspirations of Polish expansionists for nearly 700 years. The Free State of Danzig is interested in the outcome of the campaign for possession of the city because it is felt here that Vilna must be the strategic point upon which will always hang the issue of peace or war. (The League of Nations decided at its first assembly in Geneva to send an international force to Geneva to enable the people of that city to decide what their nationality shall be.)

What its possession means to the Poles is indicated by recounting some of its turbulent history.

Vilna was founded by Prince Godimip, of Lithuania, who reigned from 1315 to 1340, and with Kiev, it formed an important part of southern Russia. Godimip and King Wadislav of Poland united in a war against the order of German Knights, but it was not until a 100 years later that the two countries established a common Reichstag. This was at Horodlo on the Bug river and here the rulers of the two lands co-operated in deciding all important issues.

There was a complete union of Poland and Lithuania in 1569, as far as all state affairs were concerned

and this continued until the end of the eighteenth century. Although Lithuania was divided into six governmental subdivisions in 1795 and was under the rule of Russia, a writer in the Danzig Zeitung says, Velnas sympathies remained with Poland.

### CHICAGO FACING LOSS OF HER ART COLONY

(By Associated Press)

Chicago, December 14.—Chicago may lose its art colony as the result of the recent sale of the Lambert Tree Studio Building to Medina Temple, which plans to build the largest Masonic Temple in the world on the site.

The Tree studio building was erected by the late Lambert Tree as a home for artists, and about it has grown up an extensive art colony. Many of the painters and sculptors in the studio building have lived there for from fifteen to 25 years. They are planning to remove to New York, unless another suitable home can be found here for the colony.

Chicago's art center occupies a favored district on the near north side, just above the loop district. At one end it rubs elbows with the warehouse district bordering the Chicago river, and ten blocks north reaches the opposite extreme, mingling with the brownstone mansions and tall apartment houses of the "Gold Coast." On the east is Lake Michigan, with a bathing beach conveniently located.

### NO HIGH LABOR MARKET IN HAITI WHAT WAGES PAID

Port au Prince, (By Mail)—There is no high labor market in Haiti. The man working by the day gets one gourd, which is 20 cents, and sometime a gourd and a half. Cooks are to be had without advertising. Most of them earn \$1.50 a week, and in addition get six cents a day on which to feed themselves and their flock. You do not have to include car fare in the weekly wage down here.

At some points in the interior, wages for cooks are even lower. Many of them live in mahogany houses at that.

Haiti's population is estimated pending trial. He already has been

around 2,500,000. Ninety-seven per cent of these people are classed as illiterate, which may account for the size of the pay envelope.

### CHINESE GENERAL MAKES HIS ESCAPE

Peking (By Mail)—General Chang Ching-yao, whose troops murdered Rev. W. A. Reimert, missionary of the Reformed Church Mission, at Yochow, last June, and for whose trial and punishment the American Legation has been pressing the Chinese Foreign Office, is reported to have escaped from China and gone to Japan.

In response to the Legation's representations, the Chinese authorities had ordered the arrest of General Chang, and he was alleged to be in the custody of General Wang Chanyuan, military governor of Hupah.

required to pay over to the Mission an indemnity of \$45,000. The legation is now informed that General Chang has secretly left China.

So every girl and boy in Fayette County will be given the opportunity to tell him what they want if they are at Stutson's store between three and five o'clock Saturday afternoon.

To add to their joy each one of Santa Claus' little visitors will be given a big stick of candy—a real Christmas stick.

## BANK BANDITS RETURN BONDS

Dayton, O., December 16.—Dayton postoffice officials announce the finding of a package containing \$10,700 of stolen Liberty bonds and war savings stamps which had been deposited in a mail box at Fifth and Jefferson streets, presumably by members of a gang of bank bandits operating out of Toledo, according to a hurried investigation of the authorities.

The bonds had been registered and have been identified as part of the

lost obtained in daring robberies committed in Ohio and Indiana.

The police are proceeding on the theory that certain members of the gang have been hiding in this city.

## LATVIAN WOMEN WANT TO MARRY LOOK TOWARD U. S.

LIFBAU, Latvia. (By Mail)—Latvian girls are looking longingly at the American matrimonial market. The war has left Latvia with a surplus of women and husbands are scarce and expensive. Under the Lettish customs a bride must bring her husband a dowry in keeping with the social position of her own family and that of her husband.

A Lettish merchant consulted The Associated Press correspondent in all seriousness about the prospect of finding husbands for his daughters in America.

## 45,000 GERMANS STILL IN HOSPITALS

Berlin. (By Mail)—Two years after the war 45,000 seriously wounded German soldiers are reported still in hospitals. Some of them have gone through from 20 to 30 operations, the German Officers' Association reports, and thousands who were less seriously wounded have been sent to their homes. The association's report says the future of these men "is very dark" and has appealed to the German public to make donations for Christmas gifts to them.

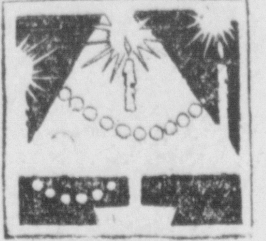

## LABOR PARTY GIVES ITS AIMS

## CLAIMS JAPAN IS MISUNDERSTOOD BY MOST PEOPLES

Tokio. (By Mail)—Denying that Japan is militaristic and inviting foreign critics to study Japanese history to prove the contention, Premier Takashi Hara has written an article entitled "Japanese National Characteristics as Misunderstood by the World" which is published in the Chuwa, an organ of the Seiyukai party.

"It is charged that the Japanese is an aggressive race, bellicose and lacking in civilization other than the art of war," the Premier wrote. "This misunderstanding may be attributed to three reflective points of view. First, Japanese history is disregarded; second, Japanese literature and art are set aside; and third, the true conditions of the life of the people have not been studied by the critics. Japan has no record in her history

of having conquered other races as every one knows. The foreign wars in the Meiji era especially the Russian war, were simply wars for self-defense against foreign aggression.

"If Japan's history is examined closely, it is rich in records of warfare, to be sure, but it is a great mistake to jump at the conclusion that the Japanese people have been a warlike race altogether, born and reared in the midst of wars. The wars of Japanese historical records have been political wars. In the days before civilization had advanced, political and military wars were employed for the same purpose by all countries which are now civilized."

## NEW CONFERENCE IS RECOMMENDED

(By Associated Press)  
Mainz, Germany. (By Mail)—The Echo Du Rhin, which is published under the direction of the French military authorities, in an editorial recom-

mends the support of a new Rhine confederation under the leadership of Bavaria and catholic Germany with a prospect of the inclusion of Austria later.

The editorial concludes: "An impoverished and subdued Prussia and a rich free south Germany would assure peace and prosperity for France."

## USES GOLDEN RULE IN HIS BUSINESS

Cincinnati, Ohio, Dec. 14.—The Golden Rule is the divine law governing human relationships, accepted by all prophets and proclaimed by all prophets and teachers of every creed and is the only workable, industrial and economic law in the universe today, according to Arthur Nash, former minister and president of the A. Nash Clothing Manufacturing company, of this city, who has injected the Golden Rule into the conduct of his business. Recently the 500 employees of the

company, actuated by the spirit of the Golden Rule, agreed to surrender their jobs for a month, either January or February, so that unemployed workmen in the clothing industry could be given employment. In June, 1916, the company was incorporated with a capital stock of \$60,000 and Mr. Nash as the prime mover and principle investor was elected president.

## ESTABLISH SCHOOL POLITICAL SCIENCE TO AID GERMANS

(By Associated Press)  
Berlin. (By Mail)—A German school of political science, the dream of the former Chancellor, Dr. Von Bethmann-Hollweg, long before the world war, at last has been established in Berlin. The dedication of the new school was made the occasion for much congratulatory talk by high German officials who express the opinion that a line of

statesmen would be developed by the new institution to direct the progress of the German republic toward its former high place among the nations.

Foreign Minister Simon in an address declared German state craft had always lacked trained leaders thoroughly schooled in political science and for that reason the people had small faith in their officials. He hoped that the new school would help establish such a faith.

Plans are to operate the school along the lines of the Ecole Libre de sciences Politiques of Paris.

CHRISTMAS TREES  
ARE MUCH LOWER;  
MISTLETOE MISSING

Rapidly the markets are filling with the Yuletide trimmings, consisting chiefly of Christmas trees, wreaths, and great bunches of holly with bright red berries peeping through deep green leaves.

"And the best part about it is this year," explains a local dealer, "is that the holiday foliage is perceptibly cheaper than last season, in fact about one third."

Trees that sold at the 1919 Christmas for one dollar are selling this year for sixty and seventy-five cents. Higher priced trees bear the same comparison. Then there are some even lower that are selling for fifty cents each that are of very respectable dimensions.

Whether the demand for it has fallen to an extent where it is no longer saleable or whether it is impossible to buy it caused one merchant to remark sadly that mistletoe was almost missing from the markets. "I haven't seen a piece of it this year," he said.

LOCAL MAN HOLDS  
ROYALTY IN NEW  
OIL TERRITORY

What is said to be one of the largest oil wells in Kentucky was bought in last Saturday by the Standard Oil Company on the Wilhelm farm about two miles north of Russellville, Ky.

It is said to have been completed at a depth of about 1300 feet and showed a heavy flow of one of the finest grades of oil found in Kentucky.

This well is said to open up new territory and prices are jumping by leaps and bounds throughout that district.

Lewis Moore of near Stanton, this county is the owner of a large royalty in the Wilhelm farm which contains over 300 acres. A number of other prominent citizens here have interests in the immediate vicinity.

Storage tanks and new drills are being rushed to the property and it is stated that the Standard intends to develop the lease as rapidly as possible.

HUGHES AND EAST HI

Many local people will probably go to Greenfield the 27th and the 31st for two of the biggest attractions on the basket ball floor that McClain High School will stage this season.

On Monday afternoon the 27th, at two-thirty o'clock, McClain will play Hughes High of Cincinnati. Hughes always maintains the strongest athletic team in Cincinnati.

East High of Columbus will be the second holiday opponent on Friday night, the 31st. This game will be called at 8:15.

The size of Camp Sherman may be reduced if the efforts to slash the army appropriation bill succeed.

The number of men to be stationed at the camp may be cut from some 10,000 to 5,000 or 6,000 is the opinion of those in touch with the situation.

Some even fear that Camp Sherman may be abandoned entirely, but there is hardly grounds for this belief, it is stated by men higher up in army circles.

Mrs. Jolly was taken to the Hospital Wednesday afternoon with a fractured hip and shoulder, the result of a fall when she suffered a fainting spell.

She was 92 years of age and although in an unusually well preserved physical condition for her years little hope was held for recovery after the accident.

Funeral arrangements have not been completed.

### QUEEN HAS WON PROFOUND RESPECT OF GREEK PEOPLE

Athens, (By Mail)—The devotion shown by Mme. Apasia Manos, wife of the late late King Alexander of Greece, to him during his fatal illness resulting from the bite of a monkey, has created so profound an impression upon the Greeks that even those who heretofore had spared no effort to separate her from the king, have today nothing but good to say about her.

For four weeks, during which the king fought for life against blood poison, his wife obtained no rest except when exhaustion compelled her to take a little sleep. The ordeal she underwent was all the more trying because of her own state of health.

Heretofore King Alexander's marriage had not been considered in some governmental quarters to be valid because it had been solemnized secretly and without the fulfillment of certain formalities. Since the death of the King, the government has been so moved by the devotion of his widow that it has discovered a law by virtue of which Mme. Manos is recognized as having been the king's legal wife.

## So Little And So Much

Among other plans of the Mothers' Circle to make Christmas happy for the less fortunate children among us is that one which contemplates gathering up from the homes throughout the city and county the excess of toys or toys which the children in the more prosperous homes have discarded for newer ones, and present them to the little folks at the Children's Home.

That there is an abundance of splendid toys in good condition or which can be put in good condition in the homes of the city and county is certain.

That the parents and children in all such homes would be glad to give their useless toys to such a cause is equally certain. The only danger menacing the splendid plan of the Mothers' Circle is that it is such a little thing for folks to do, they may forget it or neglect it for duties more important in their estimation.

While it is little for the fortunate to do it will result in such happiness to the little folks out at the home, if we would forget the little asked of us and think of how much it means to the children we are certain the toys would come in, in great numbers.

It seems hardly necessary to urge parents to get busy for a few minutes and gather up the toys and yet we know it is because we are all so busy now days.

Here is a practical charity which costs us nothing save a little energy.

## All Together

It seems natural for people generally to oppose any proposal to change tax laws or the existing machinery for listing property and collecting taxes. There has grown up an erroneous belief that reduction of tax rates or a lowering of property appraisement is entirely within the discretion of the officials and the law-makers.

So far as the law-makers are concerned that belief is well founded, provided the people are willing to deprive themselves of something they have or want. So far as officials are concerned, however, they are hedged about by law in a small realm of discretion.

It is imperative that changes be made in our taxing laws and taxing machinery and people will save themselves a world of useless annoyance by looking condition in the face and assisting in bringing about an equitable readjustment.

The task of repairing the taxing machinery is one that requires co-operation in thought and action and honesty of purpose on the part of public and officials. Contenting ourselves with complaint about existing evils will not avail.

## What To Do About It

It is not always pleasant to face the facts. Sometimes facts are unpleasant and ugly and we would much rather, following the lines of least resistance, pass by on the other side of the street and not come in contact with such facts.

There are times, however, when we must face unpleasant facts and deal firmly with them for our own protection.

The crime wave which has been rampant in some of the larger cities has sent out some smaller "rollers" which have reached into the rural communities and Washington, right now, is conscious of a disturbance on the placid surface of its orderly existence.

The rumors of hold-ups and attempted hold-ups, petty thefts and pilfering are numerous and persistent and, if possible, our force of men who guard the lives and property of the citizens should be increased. We need more strength, numerically in our police force and we need more vital energy in what we have.

We must not expect the impossible of human beings. Two men in daytime and two men at night are not enough protection.

What is to be done in the present conditions of finances is the big question. It will not help matters to blame "the city" for lack of proper protection—the city is ourselves and if the city is at fault it is ourselves.

What are we going to do to give the people better protection? The problem is worthy of serious consideration. It can't be disposed of by blaming some intangible legal creation like the corporation.

## POETRY FOR TODAY

"CHRISTMAS IS A-COMIN'."

Little Snowflake, dainty fay,  
Perched upon my ear today,  
And these words I heard him say,  
"Christmas is a-comin',  
Christmas is a-comin'."

Snowflake melted into rain,  
And I heard a voice again  
Chanting like a soft refrain,  
"Christmas is a-comin',  
Christmas is a-comin'."

Raindrops stiffened into sleet,  
Thro' the Northwind's magic fleet,  
And these words sang, silver-sweet,  
"Christmas is a-comin',  
Christmas is a-comin'."

Snowdrops, Raindrops, Sleetdrops, too  
Soon on flickle pinions flew,  
But their song I sing for you—  
"Christmas is a-comin',  
Christmas is a-comin'."

Slug it, dears, lest you forget  
And so bring yourselves regret,  
Good gifts buy; there's plenty yet—  
"Christmas is a-comin',  
Christmas is a-comin'."

—Lida Keck Wiggins.

BY MARK SULLIVAN  
(Copyright 1920)

Washington, December 17.—It ought not to have been necessary for Senator Harding to say that Senator McCormick in Europe is not his representative. Speaking of Senator McCormick as Senator Harding's "Col. House" is merely a case of the popular disposition, occasional among all of us to thing and write in phrases and formulas, and is unjust to both Senators.

Senator Harding, if he felt that courtesy to his predecessor permitted him to do so, would probably say with a good deal of emphasis that he doesn't believe in the idea of a "Col. House" as a permanent institution of government; that he doesn't propose to have any "Col. House, and that if he should have a Senatorial international Col. House for the conduct of foreign affairs, he would probably choose a Senator who at least is or has been a member of the Foreign Affairs Committee.

Senator McCormick, on his part, doesn't need to be anybody's Col. House, and is temperamentally most unfitted for that role. He is too much given to the explosive blurring out of the truth to be a carrier of diplomatic messages.

Moreover, he doesn't depend for his political standing on having a President Wilson or any one else to lean on. He doesn't need to depend for his place in the world on his standing with any other individual. He stands squarely on his own feet, and has his place in the political world by virtue of a franchise from several hundred thousand voters of the sovereign State of Illinois.

## M'CORMICK INDEPENDENT

Further than that, he is, among all the leaders in the Republican party, probably the one who is least adapted to being anybody's Col. House. By conviction and habit he is an extremely individual person, with a sharply pungent personality, independent in his political past, and by temperament strongly disposed to go his own gait. Among the younger Senators, the ones in the forties, Senator McCormick is probably the strongest.

No one has a better right to go to Europe on his own account, and no one is better equipped to talk with European statesmen on an equal basis in his personal and official contacts he is aggressively American, almost beligerently American; but that doesn't prevent his having intimate personal relations with European statesmen. He has a much larger acquaintance with European politicians and leaders of thought than any other Senator.

In the McCormick house at Washington you are nearly always reasonably sure to find a foreign ambassador as a guest for dinner, and two or three travelling European scholars staying over night. It was Senator McCormick who translated for his fellow members the speech that Premier Viviani delivered on the floor of Congress, and I think he himself once made a speech in the French Chamber of Deputies. Indeed, I think one of

the purposes of his present journey to Europe was to deliver a series of lectures in one of the Paris universities.

## ROOT AS LIAISON

In a way, it is true there is no observable disposition, not with Senator Harding necessarily, but with the other Republican leaders, to adopt the idea of a semi-official Col. House. The man these leaders have in mind is Mr. Root. If the current predisposition and grouping surmises of all the Republican leaders about the Secretary of State were distilled, the result would look a little like Charles E. Hughes as Secretary of State, with Mr. Root in the position of a sort of liaison officer in actual contact with the League of Nations statesmen abroad.

This may be 1,000 miles from the mind of the only man whose ideas on the subject count for anything namely Senator Harding; but in moving alone among the other Republican leaders you find it is quite obviously in the minds of a good many of them.

One of the easiest ways to seek death in the old days was to blow out of gas. The present way is to step on it.

BAD BRONCHIAL TROUBLE SO

For Months He Was In Poor Health  
And Had About Given Up Hope.

TOOK HYPO-COD

RESULTS FINE

"I was in a weak, run-down condition for eight or nine months. I had practically no appetite and couldn't sleep nights. A combination of bronchial trouble and a stroke which had almost paralyzed my speech. I was so bad they didn't expect me to live at all. I was bad off as anyone could possibly be and still live at all, but thanks to Earle's Hypo-Cod I'm well. It is a Godsend to sick people, and I figure it saved my life. I am now 100 percent better. Eat and sleep fine and

my voice has returned. I'm gaining in weight too and when you remember that I could hardly talk—just stagger along and that was all—and now I get along alright, it is surely a tonic worth going a long way to get," declared Mr. Samuel Woodruff, 557½ N. High St., Columbus, O.

If you know of someone who has given up, just take them a couple bottles of Earle's Hypo-Cod. The doctor we feel sure will approve the formula which is on the bottle. Druggists, chemists and experts assert it is a most powerful tonic. It is nice tasting too and will agree with a weak stomach.

Earle's Hypo-Cod is sold here by all good druggists and the leading druggists in all nearby towns.—Advt.

## TEN YEARS AGO

(Herald News This Date 1910)

At a meeting of the City School Board last Friday night the deal with George Inskeep for the purchase of the tract of ground on Oakland Avenue as a site for the new grade building was finally and formally closed.

The deal has been hanging fire, so far as closing up the last formal matters were concerned for several weeks past. The land purchased is the high wooded ridge between the Fitzgerald home and the Smith home and contains, according to the description of the deed, four and eighty one hundredth acres, and is a part of Survey No. 757.

The consideration mentioned in the deed for the conveyance is mentioned at \$4,000.

## CALIFORNIA GETS EIGHT MAIL BAGS OF XMAS PACKAGES

People Are Complying With Request

master States.

California, one of the states farthest away from Ohio, will receive eight sacks of Christmas packages from local citizens.

The eight sacks of Christmas gift packages were shipped from the local office Thursday. Postmaster Rodgers is highly pleased with the manner in which persons sending gifts are responding to the days allotted especially for certain Parcel Post zones.

"Few persons realize," states the Postmaster, "how many Washington people there are in California."

Post office employees look for their heaviest work from now on until Christmas day. The public will buy heavily Friday and Saturday and then wrap up their packages Sunday, it is said. Monday will be the heaviest day of the rush, it is believed.

## HIGHLAND MARY IN NEW GRAVE

Greenock, Scotland, (By Mail)—With great solemnity, the remains of Mary Campbell, Robert Burns' "Highland Mary," were transferred today to the Old West Kirkyard here to a new grave in Greenock cemetery. The removal had been necessitated by an extension of a local shipyard.

From the spot where Mary was buried 134 years ago the coffin was borne reverently on the shoulders of representatives Burns Clubs from all over the country to its new resting place, and a large crowd of Burns admirers attended an impressive funeral service.

Mary Campbell, a beautiful argyllshire girl, plighted her troth to the poet after a romantic courtship, but she died of fever. By her Burns was inspired to some of his most famous Scottish love songs.

The monument which Burns admirers erected on Mary's grave in 1842 now covers the new tomb.

## CONSUMERS FORM AN ORGANIZATION TO LOWER COSTS

Gera, Germany, (By Mail)—A great consumers' association has been formed at this manufacturing center of Thuringia to purchase the products of the Gera textile mills in an attempt to force down prices and relieve unemployment. The Thuringian government has arranged to place 15,000,000 marks at the disposal of the association at a low rate of interest.

Several million marks worth of material already has been bought by the association and it is planned to extend the buying campaign until all factories can resume full operations.

Nearly 7,000 of the 8,000 men formerly employed in 27 textile mills here have been idle.

## ADJUTANT DRAWS \$6,000 DURING WAR

(By Associated Press)  
Columbus, O., Dec. 1.—There is one state official who doesn't care how long the United States technically remains at war with Germany. He is the adjutant general, and until the government takes formal action placing this country on a peace basis with Germany, he'll draw \$2500 more salary a year.

The peace time salary of the adjutant general is the modest sum of \$3500 a year, which is automatically boosted to \$6000 per annum in war times. That is what the present adjutant general has been drawing, and what his successor after January 1, will until the United States removes the "technical state of war."

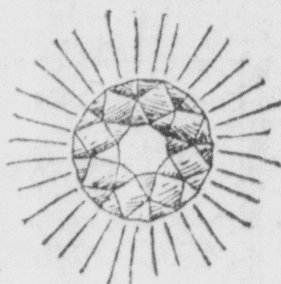

Colonel George Florence, who has been selected by Governor-elect Davis as the new adjutant general of Ohio, was a lieutenant colonel of the One Hundred and Sixty-sixth infantry in the world war.

## CHICAGO'S UNIQUE SUBWAY SYSTEM HANDLES FREIGHT

(By Associated Press)  
Chicago, December 13.—Forty feet underground Chicago has one of the most unique subway systems in the world. Devoted entirely to the hauling of freight it keeps the congested loop district comparatively free of heavy traffic vehicles. Officials of the tunnel company estimate more than 6,000 trucks would have to pass through loop streets daily to duplicate the work done by the subway.

Over 62 miles of narrow gauge track, 132 electric locomotives and 3,000 freight cars hauled 6,000,000 tons of merchandise and 230,000 tons of coal last year.

## PRISONER SENDS A REMINDER TO THE PROSECUTOR

Dog Tag Bearing Prosecuting Attorney's Name is Received at the Court House.

Prosecuting Attorney Harry M. Rankin has been remembered by one of those who came beneath his observation in a manner out of the ordinary. Homer Self, about a month ago was found guilty of forgery and sentenced to the Ohio State Penitentiary for an indeterminate period.

When Deputy Sealer of Weights and Measures Harry Daughn was inspecting the dog tags that had just arrived at the Auditor's office he found one that looked queer and closer inspection found the name "Self" stamped across its front while on the back was the name "Hare Rankin" and again the name "Self".

It is inferred that Self is making tags in the Penitentiary and that he knew his name on the tag would serve as a reminder. Carefully he had prepared the tag and then slipped it in the shipment to Washington Court House.

Another tag bearing the name "Self" was found and the number 1-111,110, beneath it. It is believed that he was trying to show the number of dogs in Ohio.

## WANT ELECTION PLANS CHANGED

Santiago. (By Mail)—A shortening of the process of electing a president of Chile which has been in use since 1833 is urged by many public men here. It now takes almost three months to elect a chief executive, the actual legal stages in the election just concluded in which Arturo Alessandri triumphed having consumed 13 weeks. Some of the leaders of Chilean opinion want to reduce the period in which the country is kept in political turmoil.

A special commission of the Chamber of Deputies has submitted a measure providing for the election of the President by a special assembly composed of members of both branches of parliament and presidential electors. All questions arising from the election would be decided by a tribunal which would include seven justices of the higher courts.

Debate on the measure is expected to begin soon and if the bill is adopted it will have to be approved by the new congress which is elected March next.

### The Safest Plan Devised

Building and loan companies must have a steady stream of deposits if they are to be of service to the community. Consequently they must offer sufficiently attractive terms to attract money.

Several years ago the directors of the Columbian Building and Loan Company foresaw the present financial situation and wisely adopted the new famous Flexible Plan to meet it. Under this plan, depositors holding certificates are

### Guaranteed Six Per Cent

The tremendous increase in resources thus brought about made the plan a great success, while the demand for money has been so great that no difficulty whatever has been experienced in lending it on the best of security.

Fairness of the plan has met popular approval. The money of the depositors earns what it is worth in the market; many people are assisted in the home ownership, and the company, on the one per cent margin, is able to operate successfully and add to its reserves.

# AKRON WOMAN GAINED TWENTY-FIVE POUNDS

Feels Stronger Than Ever Before in Her Life And At Least 15 Years Younger Since Taking Tanlac, She Says.

"I have told all my friends about Tanlac, and shall always praise it for the good it has done me," said Mrs. Alda Cohnmacker, 110 North Summit Street, Akron, Ohio.

"I had been in a wretched state of health for several years. I had headaches nearly all the time and my stomach was in a bad condition. I had no appetite and had not enjoyed a night's sleep in years.

"I had trouble in breathing, and would become very dizzy and got so I could not do my housework without stopping every few minutes to rest. My back pained me till it seemed it would break.

"Of course I had read of Tanlac,

and was on the point of giving up when I concluded to try it. Well, it took right hold of my troubles and ended them quickly. I have taken only three bottles, and already I feel like a new woman.

"My appetite is fine now, and I can eat anything I wish without any distress.

"The dizziness and choking sensation no longer trouble me and I sleep peacefully all night. The pains I had in my chest and back are all gone and I have gained twenty-five pounds in weight.

"Though I am now fifty-nine years old I feel fully fifteen years younger and stronger than I ever felt in my life and my work is like play."

Tanlac is sold in Washington by C. S. Haver, in Lowell by Mason's Drug Store, in Jeffersonville by J. B. Davis, in Oeta by J. W. Murphy and in Mill- edgeville, E. L. Ford Sons, Lee Or- man Selden—Adv't.
